Home Inventory Videos

One of the most important ways to make the most of your homeowners insurance is to be prepared with an up-to-date inventory of your personal possessions. A video of your property and belongings will help maximize and substantiate your insurance claim if your house is ever broken into or damaged.

Montrose Video specializes in documenting personal property in case of fire, theft, water damage, movers damage, estate planning and more.

What we do

We videotape the exterior and interior of your home along with any receipts, appraisal or collections you may have. You have the opportunity to narrate as we videotape to provide additional information about your possessions. Prior to arriving at your home, we will provide suggestions on how you can prepare so you can make the most of your video.

What you receive

- Two DVDs of a video of your home.
- Home inventory forms to document additional information.

Pricing

\$200 for the first hour spent at your home.

\$ 25 for each additional half hour.

**A 2000 square foot home with no special collections will take approximately 1 1/2 to 2 hours to videotape.*
